PROFILE

Computational Physics graduate with nearly one year of professional experience in Data Analytics and IT Consulting. Experienced in data analysis, machine learning, dashboard development, and business intelligence using Python, SQL, Power BI, and Tableau. Skilled in translating business requirements into data-driven insights through data cleaning, exploratory data analysis (EDA), predictive modeling, and interactive dashboards to support business decision-making.

EDUCATION

Universitas Negeri Jakarta - Jakarta, Indonesia
Bachelor of Physics, 3.53/4.00

Aug 2022 – Oct 2026

- Relevant Coursework : Machine Learning, Big Data Programming, Computer Programming, Computational Physics, Statistics, Data Analysis, Information Technology, Digital Signal Processing, Industrial Physics.

WORK EXPERIENCE

Indo Krisna Teknologi - Jakarta, Indonesia
IT Consultant Internship

Aug 2025 – May 2026

- Implemented business automation solutions that streamlined business workflows and reduced manual operational tasks.
- Developed 3 KPI dashboards integrating financial and operational data across 8 subsidiary companies using Zoho Analytics and MySQL.
- Supported CRM implementation across 5+ business processes, improving operational visibility and customer management
- Designed proof-of-concept applications that accelerated client solution validation before implementation.
- Resolved client-reported issues by troubleshooting, debugging, and validating business applications.

Indonesia Digital Test House (IDTH) KOMDIGI - Depok, Indonesia
Data Analyst Internship

Mar 2025 – Jun 2025

- Analyzed 10,000+ operational records to support performance evaluation and decision-making.
- Automated reporting workflows using Excel, reducing manual reporting time by 30% and improving reporting consistency.
- Validated and cleaned operational datasets to improve reporting accuracy and data consistency.
- Applied data analytics and anomaly detection techniques to improve monitoring, performance, and operational stability

Department of Physics Universitas Negeri Jakarta - Jakarta, Indonesia
Fundamental Physics Laboratory Assistant

Oct 2024 – Dec 2024

- Led and managed data input, evaluation scoring, and academic reporting for 40 students using Google Sheets and Microsoft Excel databases.
- Instructed and facilitated advanced computational and measurement experiments, strengthening knowledge in data analysis and technical documentation.

RECENT PROJECTS

- **Development of a Real-Time Plastic Waste Detection system for an ROUV** : Improved real-time inference performance by implementing a distributed AI architecture with an average latency of 90 ms. [Link](#)
- **Audio Genre Classification** : Classified Jazz and Metal audio using signal-processing features and machine learning. [Link](#)
- **Coffee Aroma Analysis Using PCA** : analyzed aroma-sensor data from Arabica and Robusta coffee samples using Principal Component Analysis (PCA). [Link](#)

SKILLS & CERTIFICATIONS

Hard Skills :

- **Data Analytics & Business Intelligence** : Python, SQL, Tableau, Power BI, SPSS, Machine Learning, Zoho
- **Google Tools** : Sheets, Colab, Docs, Slides, Forms, Drive, Meet, Gmail
- **Microsoft** : Word, Excel, PowerPoint, Teams, Outlook

- **Core Competencies** : Data Analytics, Data Visualization, Machine Learning, Business Intelligence, Business System.

Soft Skills : Leadership, Problem-solving, Analytical Thinking, Communication Skills, Collaboration, Presentation Skills, and Attention to Detail

Certifications :

- ISO 17025 Refreshment dan Awareness Training by Indonesia Digital Test House KOMDIGI (2025)

ORGANIZATION

Badan Eksekutif Mahasiswa Prodi Fisika UNJ - Jakarta, Indonesia	Feb 2023 – Mar 2025
<i>Chairman of Human and Resource Development</i>	
• Led recruitment of 35 new members. • Organized orientation for 80 students. • Coordinated an industry visit involving 40+ participants. • Managed leadership development programs.	

VOLUNTEERING

Physical Society of Indonesia - Jakarta, Indonesia	Jul 2025 – Jul 2025
<i>Secretary 14th International Physics Seminar 2025 (IPS 2025)</i>	
• Maintained and organizing files, records, and documents Jun 2025 - Jul 2025. • Coordinated the distribution of equipment, ensuring every need of participants and organizers is met in an efficient and timely manner. • Recording attendance and up to 200 member participants and operated audiovisual equipment during seminars.	
Persija Jakarta – Jakarta, Indonesia	Apr 2025
<i>Security & Safety Volunteer</i>	
• Monitoring the safety and comfort of up to 5,000 spectators in the stands to ensure security and comfort for each attendee.	
Central Information Agency UNJ x AORUS - Jakarta, Indonesia	Oct 2024
<i>Host of Exhibition</i>	
• Served as the host of Gaming Competitions and AI Exhibitions for more than 50 participants. • Coordinate and attend meetings with AORUS.	
The International Astronomical Union - Jakarta, Indonesia	Sep 2024
<i>Event Committee Network for Astronomy School Education (NASE)</i>	
• Prepared the necessary equipment and materials for the event. • Assisted and guided lecturers during workshops and seminars. • Conducted documentation, operated event equipment, and served as the Master of Ceremony for an event with more than 100 lecturer participants.	
Pengenalan Kehidupan Kampus Mahasiswa Baru Prodi Fisika UNJ 2023 - Jakarta	Aug 2023 – Sep 2023
<i>Coordinator of Safety and Discipline</i>	
• Oversaw the full execution of an event with 100+ participants, ensuring seamless operations and achieving targeted outcomes. • Assist and ensure the safety of new students. Led and took responsibility for the seamless running of the event
